Randolph Community Television's New Production Truck

RCTV recently purchased a new 2015 Ford Transit vehicle.

This truck was converted into a full-stage high-definition production truck. The truck uses hybrid fiber-optic cables to connect to HD cameras. It has the capability to use over eight video sources as well as wireless audio and video. This new vehicle replaces the old truck that served Randolph for over 16 years! Look for our new production truck at many Randolph events!
